Applications:

For all kind of pipes

Carbon steel, stainless steel, CuNiFe, PVC, ductile font.

Technical specification:

Operating pressure up to PN16 / PN25

Body:

- AISI304
- AISI316
- AISI316Ti
- carbon steel galvanized

Locking system:

- steel galvanized - Dacromet 500
(zinc-chromate with integrated lubricant)
- AISI304
- AISI316

Strip insert (optional) for vacuum support:

- AISI304 or AISI316

Sealing sleeve:

- EPDM -20°C up to 120°C
Medium: water, waste, air, solids
chemical products
- NBR - 20°C up to 80°C
Medium: water, gas, oil, fuel and other
hydrocarbons

- Material available according DIN 86128, W1, W2, W4, W5
- Safety factor and test pressure according your request
- Progressive seal lips with dual-channels for high reliability of tightness
- Axial movements and angular deflections (axial restraint)
- Radial deformation and vibration absorber
- On axial movement the rubber seal moves with the pipe without any abrasion or any migration
- Dove tail anchor ring
- Most efficient way to connect two pipes

SINGLE BODY WAFFLE REPAIR COUPLING

EASY 10 OD 20.0 - OD 276.0

Applications:

For all kind of pipes

Technical specification:

Operating pressure up to PN10 / PN16

Body:

- AISI304
- AISI316
- carbon steel galvanized

Locking system:

- steel galvanized - Dacromet 500 (zinc-chromate with integrated lubricant)
- AISI304
- AISI316

Sealing sleeve:

- EPDM -20°C up to 120°C
Medium: water, waste, air, solids
chemical products
- NBR - 20°C up to 80°C
Medium: water, gas, oil, fuel and
other hydrocarbons

- Safety factor and test pressure according your request
- Radial deformation and vibration absorber
- On axial movement the rubber seal moves with the pipe without any abrasion or any migration
- Most efficient way to repair low pressure pipes

TWO PIECE BODY WAFFLE GASKET EASY 20 OD 88.0 - OD 530.0

Applications:

For all kind of pipes

Technical specification:

Operating pressure up to PN10 / PN16

Body:

- AISI304
- AISI316
- carbon steel galvanized

Locking system:

- steel galvanized - Dacromet 500 (zinc-chromate with integrated lubricant)
- AISI304
- AISI316

Sealing sleeve:

- EPDM -20°C up to 120°C
Medium: water, waste, air, solids
chemical products
- NBR - 20°C up to 80°C
Medium: water, gas, oil, fuel and
other hydrocarbons

- Safety factor and test pressure according your request

- Radial deformation and vibration absorber

- On axial movement the rubber seal moves with the pipe without any abrasion or any migration

- Most efficient way to repair low pressure pipes

TWO PIECE BODY WAFFLE GASKET with **OUTLET** EASY BR OD 88.0 - OD 530.0

Applications:

For all kind of pipes

Technical specification:

Operating pressure up to PN10 / PN16

Body:

- AISI304
- AISI316
- carbon steel galvanized

Locking system:

- steel galvanized - Dacromet 500 (zinc-chromate with integrated lubricant)
- AISI304
- AISI316

Sealing sleeve:

- EPDM -20°C up to 120°C
Medium: water, waste, air, solids
chemical products
- NBR - 20°C up to 80°C
Medium: water, gas, oil, fuel and
other hydrocarbons

- Easy to connect a valve or another pipe

- Safety factor and test pressure according your request

- Radial deformation and vibration absorber

- On axial movement the rubber seal moves with the pipe without any abrasion or any migration

- Most efficient way to connect another pipe

234.0	231 - 236	4	210	107
250.0	248 - 253	4	210	107
273.0	270 - 276	4	210	107
288.0	285 - 291	4	210	107
315.9	311 - 321	4	210	107

OD : Pipe Outside Diameter
 B : Body Width
 C : Gap between sealing lips
 Rmax. : Distance between two pipe ends

Remarks:
 Any other size available
 Follow fitting / disassembly instructions

Applications:

For all kind of pipes

Technical specification:

Operating pressure up to PN1 - PN6

Body:

- AISI304
- AISI316

Locking system:

- steel galvanized - Dacromet 500 (zinc-chromate with integrated lubricant)
- AISI304
- AISI316

Sealing sleeve:

- EPDM -20°C up to 120°C
Medium: water, waste, air, solids
chemical products
- NBR - 20°C up to 80°C
Medium: water, gas, oil, fuel and
other hydrocarbons

- Safety factor and test pressure according your request
- Radial deformation and vibration absorber
- On axial movement the rubber seal moves with the pipe without any abrasion or any migration
- Very simple installation

280	300	288	150	4
315	335	323	150	4

Remarks:

Any other size available

Follow fitting / disassembly instructions

Applications:

For all kind of pipes

Technical specification:

Operating pressure up to PN6 / PN10 / PN16 / PN25

- Specially custom made assembly component to solve elongation and shortening problems
- Adjustable up to 100mm controlled by tie-rods
- Safety factor and test pressure according your request

PIPE ADAPTOR OD 90.0 - OD 600.0

Applications:

For all kind of pipes

Technical specification:

Operating pressure up to PN6 / PN10 / PN16

Body:

- GGG40

Locking system:

- steel galvanized - Dacromet 500
(zinc-chromate with integrated lubricant)

Sealing sleeve:

- EPDM -20°C up to 120°C
Medium: water, waste, air, solids
chemical products

- To connect two different diameters of pipe
- Safety factor and test pressure according
your request
- Simple installation

Clamping Range		Dimensions

PIPE ADAPTER WITH REDUCER OD 90.0 - OD 600.0

Applications:

For all kind of pipes

Technical specification:

Operating pressure up to PN6 / PN10 / PN16

Body:

- GGG40

Locking system:

- steel galvanized - Dacromet 500
(zinc-chromate with integrated lubricant)

Sealing sleeve:

- EPDM -20°C up to 120°C
Medium: water, waste, air, solids
chemical products

- To connect on one side with flange and on the other side with smaller diameter of pipe
- Safety factor and test pressure according your request
- Simple installation
